The Equine NUTrition and TRAINing Conference – ENUTRACO – 2015 will provide you with the opportunity to discuss in depth with your peers about mycotoxins, phytomedicine, roughage only nutrition, prevention and rehabilitation of musculoskeletal conditions. Just make time and join us in Bingen on the Rhine to enjoy it all!

Your Program

Thursday, September 3, 2015
Location: Hildegardishaus, Bingen  
Lectures
(Accredited by Akademie für tierärztliche Fortbildung with 6 hours of Continuing Education)
09:45 Welcome
10:00 How to feed sport horses with roughage only: Anna Jansson
10:45 Discussion
11:30 Coffee break
12:00 Quality parameters for assessing good roughage for horses and how to meet those under different environments: Anna Jansson, Jürgen Müller, Johannes Thaysen
13:00 Discussion
13:45 Lunch
15:00 Equine immunology and phytotherapic drugs: Possibilities and limitations: Sabine Vollstedt
16:00 Discussion
16:30 Coffee break
17:00 Medicinal plants for animals – a current therapeutic option with long tradition: Michael Walkenhorst
18:00 Discussion
18:30 End
19:00 “Nutrition” of participants and speakers

Friday, September 4, 2015
Location: Hildegardishaus, Bingen  
Lectures
(Accredited by Akademie für tierärztliche Fortbildung with 6 hours of Continuing Education)
09:00 Impact of moulds and mycotoxins on health and performance of horses: analytical procedures, interpretation of results, intervention and mycotoxin mitigating feed additives: Johanna Fink-Gremmels
10:00 Discussion
10:30 Coffee break
11:00 The Whole horse approach to Equine Rehabilitation: the biomechanical view: Diane Isabel and Sheila Schils
12:15 Discussion
12:30 Biomethylation supplementation in horses performing incremental treadmill exercise: De Oliveira Kátia et al
13:15 Lunch
14:30 Acute treatment of tendon, tendon sheaths and ligament injuries (SDFT, SL, DDFT, ET, collateral ligaments and including hind limb): Florent David
15:15 Discussion
15:45 Coffee break
16:15 The Whole horse approach to Equine Rehabilitation: the myofascial view: Vibeke Södring Elbrönd
17:15 Discussion
18:00 End
18:30 “Rehabilitation” of participants and speakers

Saturday, September 5, 2015
Location: Hildegardishaus, Bingen  
Lectures
(Accredited by Akademie für tierärztliche Fortbildung with 7 hours of Continuing Education)
09:00 Immobilization and re-mobilization of injured tendon and ligaments – new approaches: Florent David
09:45 Discussion
10:30 Coffee break
11:15 Novel approaches for injury-prevention and monitoring of tendons and ligaments by means of ultrasound tissue characterization (UTC imaging): Hans van Schie
12:15 Discussion
13:00 Lunch
14:30 Shoing: Considerations to maintain sport horses healthy and rehabilitation measures: Florent David
15:30 Discussion
16:45 Coffee break
16:50 The Whole horse approach to Equine Rehabilitation: the biomechanical view: Vibeke Södring Elbrönd
17:15 Discussion
18:00 End
18:30 “Rehabilitation” of participants and speakers

Sunday, September 6, 2015
Location: Tierklinik Binger Wald  
Wetlabs
(Accredited by Akademie für tierärztliche Fortbildung with 6 hours of Continuing Education)
08:30 The Whole horse approach to Equine Rehabilitation: Evaluation, diagnosis and manual treatment. Laminence exams will be done on horses with known musculoskeletal pathologies and their biomechanics discussed. Then the specific (and others if deemed necessary too) regions of the pathologies will be ultrasound and the findings discussed. Thereafter the best means of rehabilitation will be discussed and demonstrated. Clinical exam and ultrasound: Diane Isabel.
12:30 Lunch
13:30 Continue work
17:00 End

Monday, September 7, 2015
Location: Tierklinik Binger Wald  
Practical Work
(Accredited by Akademie für tierärztliche Fortbildung with 6 hours of Continuing Education)
08:30 The Whole Horse approach to Equine Rehabilitation: Evaluation, diagnosis and manual treatment. Laminence exams will be done on horses with known musculoskeletal pathologies and their biomechanics discussed. Then the specific (and others if deemed necessary too) regions of the pathologies will be ultrasound and the findings discussed. Thereafter the best means of rehabilitation will be discussed and demonstrated. Clinical exam and ultrasound: Diane Isabel.
12:30 Lunch
13:30 Continue work
17:00 End

The wetlabs are:
1) Functional electrical stimulation (FES): Sheila Schils
2) Myofascial release: Vibeke Södring Elbrönd
3) Shoeing and soft casts for fetlock support and the EquiStrap rehab device: Florent David
4) Scanning tendons and ligaments with UTC imaging: Hans van Schie

The speakers are described in the page of this event on www.agpferd.com

5-yr-old Brazilian Sport Horses in preparation for eventing. Padilha Felipe et al
De Oliverira Kátia et al
Florent David
Diane Isbell and Sheila Schils.
Johanna Fink-Gremmels
Hans van Schie
Sheila Schils and Vibeke Södring Elbrönd.
Anna Jansson, Jürgen Müller, Johannes Thaysen
