EQUINE ORTHOPAEDIC CASE DAYS 2017

Weilerswist-Müggenhausen, Germany · September 23 to 26, 2017

Our courses are more than just events of sober education! Learning is hard work and we strive to provide you with opportunities to unwind, socialise and network. Take the opportunity to give your "musculus orthopaedicus" a bit of rest and have some fun during our surprise evening!

Participants will see experts in the field of diagnosis and treatment of orthopaedic diseases working up routine clinical lameness on day 1 of the course. The instructors will discuss their approaches, findings, diagnosis and treatment options as they present all cases on day 2. Days 3 and 4 of the course will be devoted to discuss and demonstrate rehabilitation measures for selected cases examined on day 1 with the objective of sending the horses home with a rehabilitation program.
